# LE MONDE'S EURO CONVERTER

The Euro Converter is an executable program that converts former European currencies into euros and vice-versa.

Read this pamphlet to learn about downloading and using the Euro Converter.

## DOWNLOADING THE EURO CONVERTER

1. Type [www.lemonde.fr](http://www.lemonde.fr) into your internet browser and press **Return**.
2. Use Le Monde's search engine to find the Euro Converter
  - Type "Euro Converter" as your search criteria.
3. Click on the Euro Converter to download.
4. Click on the downloaded file on your desktop to start the program.

## USING THE EURO CONVERTER

Access the converter's features by clicking on any of the four stars.

## FIRST STAR

Click on the first star to access the converter. You have 3 choices:

1. Click on the right arrow to switch to one of the other 12 European currencies the Euro has replaced.
2. Enter your amount in Francs and click the down arrow to see the conversion to Euros
3. Enter your amount in Euros and click

## SECOND STAR

Click on the second star to discover what amount one of the 12 European currencies is equal to one Euro.

\* Click on the right arrow to switch to one of the other 12 European currencies.

For example, 6.55957 Francs equals 1 Euro:

- **Note:** On every option face the stars take you to, you can click "retour" to return to the start face:
